EXPERIENCE.

TDK india, Satpur,Nashik – Trainee Engineer.

2020 – 2021

Mphasis limited - Associate Software Engineer

2022 – Present

EDUCATION.

Matoshri college of Engineering & research centre, Eklahare, Nashik. – *BE. Electrical.*

2016 - 2020, CGPA: 6.69

Matoshri Asarabai Polytechnic Eklahare, Nashik.
Dip. Electrical.

2013 - 2016, Percentage: 62.85%

Bal Jesu Sevadan Highschool, Nashik
SSC

March 2013, Percentage: 67.60%

PROJECTS.

Underground Fault Detection in 2016

Underground cables are not affected by any adverse weather conditions. But, when any problem occurs in cable, it is very difficult to find the exact fault. Day by day, the world is becoming digitized so the project is proposed to find the fault in a digital way.

Improvement In Transformer oil Filtration in 2020

Nearly all load bearing transformers in electric power systems around the world are filled with insulating oil i.e. transformer oil. Insulating oil plays a major role in the transformer. So quality of the transformer oil must be high, and we have achieved this quality form having some possible modification in purification and filtration kit. It proves very efficient and time saving operation.

SKILLS.

- Programming Fundamentals C /C++
- JAVA (Full Stack)
- JAVA microservices
- SQL (Database)
- Software Testing (Manual)
- MS Office
- Knowledge of electrical machines

AWARDS.

Volunteering UDAAN at MAP ,
Nashik (March 2015)
Received Appreciation
Certificate.

Participated in MVD-ELICIT
(Jan 2017) In Technical Test
Innovative Ideas.

Inter College Chess
Competition (Nov 2017)
Runner up.

PERSONAL DETAILS

DOB - 12/03/1998
Gender – MALE
Languages-
Marathi, Hindi, English.
